SALEM FREE PUBLIC LIBRARY.

The twenty-ninth annual report of the trustees is herewith presented:

At the beginning of the current year officers were chosen as follows: Murray F. Smith, chairman; Daniel A. Abbott, treasurer; Ralph M. Haigh, clerk; Mrs. Hattie F. Abbott, librarian; Miss Alice L. Hall, assistant-librarian.

The past year the board made slight repairs, including painting the front of the building and sign, and feel that during the coming year the entire building should be painted and hope the article in the warrant will receive the support of the voters.

Several new volumes have been added during the year and the trustees also wish to call the attention of the patrons to the large number of monthly magazines to be found on the reading tables.

Twenty-five volumes were received by gift from the estate of Susan C. Smith of Lawrence, Mass., for which the trustees are very thankful.

The growing popularity of the library is very apparent by the large increase in volumes issued during the past year and in order to keep the library up to its high standard we wish to recommend an appropriation of \$500 for expenses the coming year.

Respectfully submitted,
MURRAY F. SMITH,
DANIEL A. ABBOTT,
RALPH M. HAIGH,
Trustees of Salem Free Public Library.

REPORT OF THE BOARD OF HEALTH.

The contagious diseases reported during the year were: tuberculosis, scarlet fever, chicken pox and whooping cough.

The scarlet fever cases were all in the early part of the year and the cases of whooping cough have been unusually heavy at the close of the year.

There were forty-three deaths from all causes, five of which were from tuberculosis, one from scarlet fever, one from cholera infantum and two accidental.

The number of deaths from tuberculosis is unusually large for this town and is due to the fact that people suffering in the last stages of this disease are brought here from out of the state, in an attempt to give them relief.

Population last census, 2,318.

Death rate per thousand, 18.55+.

The increased receipts of the court during the year are due to the enforcement of the liquor laws. Since the local officers have been handling this matter the county officers have felt but little necessity of coming here owing to the efficient manner in which the town officers have conducted the prosecutions. Mr. F. L. Chrysler deserves much credit for the manner in which he has enforced the law and has done much to clear the town of the illicit traffic, and while there are doubtless many violations still existing, offenders are fearful of the second offense, the conviction of which must be followed by a jail sentence.

REPORT OF MUSIC INSTRUCTOR.

To the Superintendent and School Board of Salem, N. H.:

I submit herewith my fifth annual report as supervisor of music in the Salem Public Schools.

The work in this department during the year has progressed steadily along the usual lines and has been measurably successful. A large percentage of the success of the work in music is due to the constant helpfulness of the teachers.

The Hollis Dann Music Course is being used at the Depot School in all the grades. At the Center, Number 8 and Number 5 the same course is used in the upper grades. This particular course of study deals with every music problem from the beginning of school life through the Junior High School. The song material is unusually attractive; there are some old-time favorites; there are many new songs composed especially for this course which are sure to delight every boy and girl.

The Progressive Music Course used in the upper grades in the North Salem Schools and at No. 7 and No. 9 furnishes a variety of exercises and songs which are helpful and tune-ful. In the lower grades at No. 4 and No. 9 the Hollis Dann Book II is being used. At No. 3 and No. 7 the New Educational Book I in the third and fourth grades.

I wish to thank again the superintendent of schools, the school board and the teachers of Salem for the support and co-operation given me.

Respectfully submitted,

EVA A. WILLIAMS.

REPORT OF THE SCHOOL NURSE.

To the Superintendent and School Committee of the Town of Salem:

Pupils examined,	384
Official notices to parents,	143
Hypertrophied tonsils,	122
Adenoids,	43
Gland diseases,	1
Skin diseases,	1
Orthopedic defects,	2
Defective teeth,	217
Defective vision,	45
Unvaccinated,	27
Torticollis,	1
Granulated eyelids,	1
Goitre,	2
Strabismus,	2
Pediculosis,	25

Number instances of defects remedied since last examination, 49

Number instances treatment secured since last examination, 49

The general health of the school population is excellent. The children have been most responsive to suggestions.

In my visits to the homes I found the parents very willing to co-operate. In some cases there were parents who felt they could not afford the expense of treatment suggested. I feel that measures should be taken to procure for these children the necessary professional services. I am sure had the parents of these children been able they would have been willing to provide treatment for them. These cases consisted of defective teeth, diseased tonsils and adenoids and defective vision.

I suggest that a health card be introduced into the schools. Each pupil being held responsible for a conscientious report of his following of the simple rules of health which such a card would outline. In cities and other towns where such a

device has been used excellent results have been obtained in the promotion of health among school children.

For the assistance and co-operation given me in my work by the teachers, parents and children I wish to extend my appreciation.

Respectfully submitted,

MARY G. RAMSAY, R. N.

REPORT OF SPECIAL HIGH SCHOOL COMMITTEE.

To the Inhabitants of the Town of Salem, New Hampshire:

At the annual district school meeting held March 12, 1921, at Salem, New Hampshire, and while action was being taken on Article 9 of the SCHOOL WARRANT it was voted—That a Committee of five be appointed, three nominated from the floor, together with the Superintendent of Schools and the chairman of the school board, for the purpose of choosing a site for a high school, also to procure plans and specifications for a building, also to examine and report upon high schools maintained in towns where the conditions are similar to those of Salem, also to ascertain the cost of erecting a building and the annual cost of operating a high school in Salem. And further that this committee will serve without pay, except actual cash disbursements and expenses of obtaining plans and specifications. And further that the district shall raise and the committee shall be limited to the sum of one thousand dollars, and report at the next annual meeting. Nominations were received from the floor and the following were elected to serve with the chairman of the School Board and the superintendent of schools: C. H. Borchers, G. M. Woodbury, and A. O. Alexander.

Your committee immediately went into session and elected C. H. Borchers as chairman, and A. O. Alexander as secretary. The matter of choosing a suitable site was first taken up, and after giving it careful consideration, a lot on the North side of Main St., at the Depot Village and about opposite the Catholic church was chosen, because of its favorable geographical position, its ready adaptability for school purposes, adequate facilities for athletic developments, good opportunity for the disposition of drainage and low cost of grade preparation.

The matter of plans and specifications was next taken up, and your committee begs to submit herewith, a full and complete set of plans and specifications, by James E. Allen, Architect, Lawrence, Mass., which we believe covers every

detail of requirements for a High School building and equipment ready for use.

Figures for the cost of maintaining high schools in other towns where conditions are similar to those here in Salem, except those given by Superintendent MacDougall in his last report, are not available at this time.

Your committee has ascertained that the cost of a building to be erected on the above mentioned site according to the plans and specifications herewith submitted, would be one hundred thousand dollars (\$100,000.00), and the annual cost of maintenance ten thousand two hundred dollars (\$10,200.00). The maintenance cost is made up of items as follows: Teachers \$6,500.00; janitor \$1,000.00; fuel \$750.00; textbooks and supplies \$500.00; commercial equipment and maintenance \$125.00; janitor's supplies \$50.00; lighting \$50.00; power \$300.00; water \$50.00; maintenance of light power and heating equipment \$25.00; insurance \$750.00; incidentals \$100.00; total \$10,200.00.

The building as planned is intended to take care of pupils of the seventh and eighth grades, to relieve a crowded condition which now exists in other quarters, and the price mentioned for the building covers the housing of these grades so far as the cost of erecting the building large enough to handle them would apply, but the cost of equipment, books and maintenance as mentioned applies to the high school grades only.

Your committee has incurred no expense other than that which the architect has charged for his services, namely one thousand dollars, (\$1,000), his bill for which, has been approved.

Respectfully submitted this seventeenth day of February, nineteen hundred twenty-two.

Signed,

C. H. BORCHERS,
A. O. ALEXANDER,
G. M. WOODBURY,
J. A. MACDOUGALL,
E. J. MANOR.
